

Table of Contents

Table of Contents	i-vii
Executive Summary	viii
1. Introduction	1-1
1.1. Background	1-1
1.2. Purpose and Scope	1-3
1.3. Organization	1-4
2. Land and Water Resources	2-1
2.1. History	2-1
2.2. Population and Land Area	2-2
2.3. Climate	2-4
2.4. Topography and Watersheds	2-4
2.5. Soils	2-5
2.6. Land Use	2-8
2.7. Key Water Resources	2-10
2.7.1. Lakes and Ponds	2-10
2.7.2. Rivers and Creeks	2-12
2.7.3. Wetlands	2-18
3. Goals and Policies	3-1
3.1. Purpose	3-1
3.2. Background	3-1
3.3. Overview	3-3
3.4. Goals and Policies	3-4
3.4.1. Goal 1: To Control Rates and Volumes of Stormwater Runoff for Flood Protection	3-4
3.4.2. Goal 2: To Treat Stormwater Runoff in Order to Protect Receiving Waterbodies	3-7
3.4.3. Goal 3: To Protect the City's Valuable Water Resources	3-9

3.4.4.	Goal 4: To Regulate the City's Surface Water System to Ensure Proper Design, Construction, and Use of the System.....	3-12
---------------	-----------------------------------------------------------------------------------------------------------------------	------

3.4.5.	Goal 5: To Operate and Manage the City's Surface Water System Consistent with Best Current Practices and the City's Phase I NPDES Permit	3-13
---------------	------------------------------------------------------------------------------------------------------------------------------------------------	------

3.4.6.	Goal 6: Preserve, Maintain and Enhance the City's Natural and Recreational Resources	3-15
---------------	--------------------------------------------------------------------------------------------	------

3.4.7.	Goal 7: Erosion and Sediment Control – Program and Principles	3-17
---------------	---------------------------------------------------------------------	------

4. System Assessment..... 4-1

4.1.	Overview	4-1
-------------	----------------	-----

4.2.	Citywide Hydrologic Modeling Calibration.....	4-1
-------------	-----------------------------------------------	-----

4.2.1.	Hydrologic Modeling Parameters.....	4-1
---------------	-------------------------------------	-----

4.3.	Assessment of Problems	4-1
-------------	------------------------------	-----

4.3.1.	Water Quantity Assessment	4-1
---------------	---------------------------------	-----

4.3.1.1.	Flooding of Storm Drainage System.....	4-2
----------	----------------------------------------	-----

4.3.1.2.	Deep Tunnel System	4-3
----------	--------------------------	-----

4.3.2.	Water Quality Assessment.....	4-3
---------------	-------------------------------	-----

4.3.2.1.	Minnehaha Creek Watershed	4-7
----------	---------------------------------	-----

4.3.2.2.	Mississippi Watershed.....	4-18
----------	----------------------------	------

4.3.2.3.	Shingle Creek Watershed	4-22
----------	-------------------------------	------

4.3.2.4.	Bassett's Creek Watershed	4-27
----------	---------------------------------	------

5. Implementation..... 5-1

5.1.	Overview	5-1
-------------	----------------	-----

5.2.	Regulatory Administrative Responsibilities	5-1
-------------	--------------------------------------------------	-----

5.3.	Gaps in Programs and Regulatory Controls	5-3
-------------	------------------------------------------------	-----

5.4.	Design Standards	5-16
 5.4.1.	Water Quantity	5-17
 5.4.2.	Water Quality.....	5-22
5.4.2.1.	Assessment and Mitigation Guidelines	5-23
5.4.2.2.	Water Quality Assessment.....	5-24
5.4.2.3.	Assessment Methodology	5-26
5.5.	Surface Water Monitoring	5-34
 5.5.1.	Status	5-34
 5.5.2.	Strategies.....	5-35
5.6.	Operation and Maintenance	5-36
 5.6.1.	Surface Water System Maintenance	5-36
5.6.1.1.	Open Channels	5-36
5.6.1.2.	Piping System	5-37
5.6.1.3.	Sump Manholes and Sump Catch Basins	5-37
5.6.1.4.	Storm Sewer Inlet Structures	5-38
5.6.1.5.	Grit Chambers.....	5-38
5.6.1.6.	Pump Stations	5-38
5.6.1.7.	Stormwater Basins.....	5-38
5.6.1.8.	Basin Outlets	5-38
5.6.1.9.	Basin Inlets	5-39
5.6.1.10.	Side Slopes.....	5-39
5.6.1.11.	Sediment Buildup.....	5-39
 5.6.2.	De-icing Practices	5-39
 5.6.3.	Street Sweeping	5-40
 5.6.4.	Illicit Discharges	5-40
5.6.4.1.	Spill Response	5-40
5.6.4.2.	Illicit Dumping and Discharges	5-40
5.6.4.3.	Detection of Illicit Connections	5-41
5.7.	Education	5-41
 5.7.1.	Overview	5-41
 5.7.2.	City Staff	5-41
 5.7.3.	City Residents	5-42

5.7.4.	Development Community	5-43
5.8.	Water Quality Implementation Efforts	5-43
5.9.	Flood Mitigation.....	5-45
5.10.	Deep Tunnel System.....	5-45
5.11.	NPDES Phase I Program	5-48
5.11.1.	Program Overview	5-48
5.11.2.	Permit Renewal.....	5-54
5.12.	Capital Improvement Program.....	5-56
5.12.1.	Priorities and Schedules	5-56
5.13.	Financing	5-57
5.14.	Amendment Procedures	5-58
5.15.	Annual Report to Council.....	5-59
6.	Summary and Recommendations.....	6-1
6.1.	Summary	6-1
6.2.	Recommendations.....	6-2

Appendices

- A. Past Studies and Reports
- B. Mississippi Environmental Pool Plans
- C. Load Reduction Requirements
- D. Infiltration Guidelines
- E. Watershed, State and Federal Agency Requirements

List of Figures and Maps

Figure 1	Location Map	1-2
Figure 2	Neighborhoods	2-3
Figure 3	Surface Water Bodies Watersheds and Pipesheds	2-6

List of Figures and Maps (continued)

Figure 4	Soils Map	2-7
Figure 5	Existing Land Use	2-9
Figure 6	Parks	2-11
Figure 7	Locks and Dams	2-14
Figure 8	National Wetlands Inventory Wetlands and Political Watershed Boundaries	2-19
Figure 9	Flood Mitigation Project Status	4-5
Figure 10	Load Reduction Requirements	5-25

List of Tables

Table 2.1	Dakota Names for Waterbodies	2-2
Table 2.2	Temperature and Precipitation Monthly Averages	2-4
Table 2.3	Area of the City Within Each of the Watersheds	2-5
Table 2.4	Key Water Resources in the City	2-12
Table 3.1	Overview of Goals and Policies	3-3
Table 4.1	Types and Causes of Flooding Problems	4-4
Table 4.2	Trophic State Index Ranges	4-6
Table 4.3	Loading Rates (kg/ha/yr) for Chain of Lakes Watershed	4-8
Table 4.4	Goals for Chain of Lakes Watershed	4-8
Table 4.5	Trophic State Index Trends for Lakes in the Minnesota Creek Watershed	4-9

List of Tables (continued)

Table 4.6	Lake Water Quality Report Card Grade Ranges and Descriptions	4-9
Table 4.7	Water Quality Grades for Lakes in the Minnehaha Creek Watershed	4-10
Table 4.8	Target Phosphorus Concentrations for Lakes in the Minnehaha Creek Watershed	4-11
Table 4.9	Completed and Ongoing Efforts in the Minnehaha Creek Watershed	4-12
Table 4.10	Trophic State Index Trends for Lakes in the Mississippi River Watershed	4-19
Table 4.11	Completed and Ongoing Efforts in the Mississippi River Watershed	4-20
Table 4.12	Trophic State Index Trends for Lakes in the Shingle Creek Watershed	4-22
Table 4.13	Classification Scheme for Waterbodies in Minneapolis under the Jurisdiction of SCWMC	4-23
Table 4.14	Ryan Lake Water Quality Data	4-24
Table 4.15	Water Quality Evaluation Criteria for Shingle Creek Watershed	4-25
Table 4.16	Impaired Waters in the Shingle Creek Watershed	4-26
Table 4.17	Completed and Ongoing Efforts in the Shingle Creek Watershed	4-27
Table 4.18	Trophic State Index Trends for Lakes in the Bassett's Creek Watershed	4-28

List of Tables (continued)

Table 4.19	Definition of Management Classification According to Desired Uses	4-28
Table 4.20	Management Classification of Major Waterbodies in the Bassett's Creek Watershed	4-28
Table 4.21	Treatment Requirements for Waterbodies in the Bassett's Creek Watershed	4-29
Table 4.22	Completed and Ongoing Efforts in the Bassett's Creek Watershed	4-30
Table 5.1	Regulatory Responsibilities for Stormwater Management and Related Issues	5-2
Table 5.2	Identification of Gaps in Existing Programs and Regulations	5-4
Table 5.3	Implementation Strategy Following Gap Identification	5-7
Table 5.4	Present Impervious Cover to be Used for Parking Lots and Driveways	5-18
Table 5.5	Present Impervious Cover to be Used for Residential Uses	5-18
Table 5.6	Curve Numbers (CN) and Rational Method Runoff Coefficients (C) Associated with Impervious Cover	5-19
Table 5.7	Current and Proposed Land Cover	5-26
Table 5.8	Estimates of Potential TP Reduction that can be Achieved through BSD for Various Land Uses	5-27
Table 5.9	Waterbodies Identified as having Water Quality Problems	5-44
Table 5.10	Status of Flood Mitigation Projects	5-46
Table 5.11	Status of NPDES Activities	5-51
Table 5.12	Capital Improvement Program 2004-2008	5-56
